

THE 24-HOUR QUALITY CHALLENGE · 2026

Beat Your **Best.**

Your best estimator spent a week on that tender. We produce the same outputs from the same documents, typically within twenty-four hours. Then you compare. You keep everything.

PREPARED FOR

Prospective clients

ISSUED

2026

Real documents. Real scenarios. Not a screenshot and a prayer.

You have a tender your team is proud of. The one that won. The one your best estimator or bid manager spent a week on. Send it to us. Typically within twenty-four hours, you compare.

~24h

OBLIGATION

WHAT YOU SEND US

- The original tender pack - invitation, scope, specification, drawings, schedules
- Any additional information your team used
- Your completed submission
- The approximate time your team spent

WHAT YOU GET BACK

- A complete output set produced from scratch
- Full comparison cover sheet with timestamps
- Not a critique, not a redline - a fresh output
- Yours to keep regardless of what you decide

Full output set

Exclusions schedule

Pre-submission QA checklist

Four steps. About a day.

Tell us the job. Get the documents. Check them. Issue them. That is it.

01 You send the documents

The tender pack, source material, your completed submission and the time your team spent. We acknowledge receipt and start the clock.

02 We process and QA

Your source documents run through the workflow. Full output set produced, internally reviewed and quality-checked before delivery.

03 You receive the output

Complete pack delivered with a cover sheet showing timestamps, elapsed time against your team's reported time.

04 You compare - side by side

Structure, completeness, assumptions, exclusions, RFIs, risks, evidence discipline, consistency, review readiness and time. Ten dimensions.

Do the maths. Then decide whether it is worth a conversation.

BuiltAI is how the next generation of contractors will win work, deliver projects and protect margin.

EVERY OUTPUT INCLUDES

- Source documents received - itemised list
- Processing started - timestamp
- Processing completed - timestamp
- Total elapsed time
- Your team's reported time
- Time comparison

TWO WAYS IN

- Option A - skip the call. Send the tender pack behind your best recent submission, and your team's completed output. Then compare. If the output earns a conversation, we will talk. If it does not, no follow-up.
- Option B - start with a Proof Call. Thirty minutes. Bring your worst document. Watch us process it live. Then take the Beat Your Best challenge as the follow-up.

THE OFFER

No slides. No demo. No pitch. Send us your proudest tender and compare the output. Then judge it on what comes back.

Take the challenge.

Send the tender pack behind your best recent submission, with your team's completed output. We acknowledge receipt and start the clock.
